CATALOG

Hi, kids! I'm Farmer Jeff. I want to introduce you to some of my friends today.

God uses families like yours and mine  
To bring help, hope, and healing at just the right time.  
We bring gifts more special than milk, eggs, and cheese--  
The chance to give hope while meeting real needs.  
To show Jesus' love and the way that He cares,  
We offer folks meals, or a goat, or some hares.  
With time spent in teaching and sharing and prayer,  
These small things bring life to kids everywhere.  
Think with your family, and ask God to show  
How you can be part of this blessing that goes  
To people all over God's beautiful earth  
So they can know their meaning  
and worth!

connecting people in need  
with people who care

Some backyards are tiny—no room for a cow.  
My friends and I can help somehow!  
The folks still need protein and something to sell  
To bring home some money—keep everyone well.  
We chickens lay eggs and kids gather them up  
In buc-buc-buc-buckets, or bowls, or a cup.  
We're easy to care for lined up in the coop,  
Except when we're running—don't step in the... OOPS!

You can buy 10 chickens for \$25 and help other kids grow strong and healthy.

**Pray** a prayer of thanks that God uses even chickens in His plan to show love to people.

Spot 10 chickens in the photo.  
Draw a heart around each chicken you find on Farmer Jeff's farm.

Nanda's a grandma who had lots of worry  
She needed a plan to feed folks in a hurry  
Friends gave Nanda two rabbits and taught her to raise us  
And prayed over the perfect-sized cage that we stay in.  
We rabbits had babies, and those ones had more  
Until Nanda's family had rabbits galore!  
Plenty to sell and then bring home some money  
To buy food and clothes and more food for more bunnies!

You can buy 2 rabbits for a family like Nanda's for \$25.

**Pray** for the workers that will teach families like Nanda's to raise and sell rabbits. Pray for opportunities for them to show Jesus' love.

Help Ravi find his carrot!

Zaid was badly injured—he worked hard to recover.  
He had no more money he soon would discover.  
But then he received me, Lalit. (I'm a goat!)  
New friends taught him well how to keep things afloat.  
I give him good milk, to drink and sell cheese  
So Zaid's small family can plant and grow peas  
And countless more veggies they'll put in their garden,  
So soon they can open their very own market!

You can buy one goat for \$75 that can bring hope to a family like Zaid's.

**Pray** for meaningful conversations that can happen while Farmer Jeff's friends teach families like Zaid's to farm with goats and raise vegetables.

Farmer Jeff named me Arvin and helped me grow strong  
I moo-oo-ooved in with Miko and helped his family along  
Miko was hungry a lot of the days  
But my milk made him healthy in so many ways!  
Miko can gather my milk in a pail  
To have plenty for drinking and still lots for sale.  
In early morn waiting out here in the stall  
I'm glad to see Miko in spring, summer, and fall.  
My milk provides protein and vitamins, true,  
And brings in some money for food and clothes too!

You can buy a cow for \$300 and provide years of financial security for a family like Miko's.

**Pray** with your family for cows like Arvin to give lots of milk for their families to drink and sell.

Pass it along - buy milk, dry milk or cheese for your local food bank (call ahead) and provide important nutrition for someone in your community.

Next time you bathe, brush your teeth, or drink  
Imagine the water grey-brown in the sink.  
Or think about knowing that each time you sipped  
The water could make you get sick as it dripped.  
Families in so many places world-wide  
Need healthy, clean water to help them to thrive.  
A filter will make water clean for a year  
Just imagine how you can bring joy and cheer!

You can buy one water filter for \$25, which provides a year of clean water for a family.

**Pray** for every person in the world who needs clean water. Pray with your family for this need to be met. Think together of ways your family could work together to provide a water filter through BGR.

Month after month after month with no rain  
Leaves us and our neighbors worn out from the strain  
Of worry that we won't be able to eat.  
No veggies can grow, and there isn't much meat.  
Imagine how thankful and joyous the day  
When BGR friends brought good meals our way!  
When you and your family provide this kind grace  
I have energy new—let's run a race!

You can feed a hungry child for a week  
(a nutritious meal each day for 5 days)  
for \$3.50

**Pray** for children like Debra who are physically hungry. People can be hungry in a spiritual way too. Jesus is the answer for spiritual hunger. BGR addresses this hunger as they meet physical needs with the help of families like yours.

# Activities for Groups

## Chicken Dance Competition

**Category:** Worship Time

**Gift Catalog Item:** 10 Chickens

**Supplies Needed:** “Chicken Dance” song

### Instructions:

Do the chicken dance during worship time each morning and get students excited about donating chickens to people around the world!

## Egg and Spoon Relay Race

**Category:** Game

**Gift Catalog Item:** 10 Chickens

**Supplies Needed:** spoons and hard-boiled eggs

### Instructions:

Split the children into two or more teams for a relay race. Ask each group to line up and give the student at the head of each line one spoon and one egg. Children will balance their eggs on their spoons. Then, place a chair several yards in front of each line. When you say, “Go!” the children holding the spoons will walk as quickly as they can to the chairs and back. If an egg falls, the player holding it must pick it up, return to his or her line, and start again. After reaching the chairs and walking back to their teams, students will hand their spoons off to the next teammates in line, and those teammates will try to race without losing eggs. This cycle will continue until all members of a team have participated. The first team of students to complete the race with the egg intact wins.

After the game, tell students these teams represent families and the eggs represent jobs and money for each “family”. If the egg falls, that “family” loses all its money must start over again and rebuild its savings!

### Follow-up discussion:

Ask, “How did it feel when you lost your egg?” Explain that families around the world depend on chickens to make money, and then let children discuss ways chickens can make money for a family. (Example: eggs, meat)
