

HOSPICE KIT

Thank you for partnering with BGR to send hope and healing to those who need it most!

PACKING NOTES

One kit will cost around \$100 or less.

Baptist Global Response (BGR) has researched and worked with partner organizations to determine the best resources to include in the kits. For uniformity in packing and shipping as well as customs approval in recipient countries, please only provide completed kits that match the detailed list. Varying kits and materials may delay shipments and in some cases may mean that the kits will not be accepted into a country.

All kits must include all of the requested items. Some items listed are available in bulk or are only available in quantities larger than needed.

For example, if after completing five kits you have 10 extra packs of straws, include all extras in a separate box marked EXTRAS.

Purchase new items and, when stated, use only the brands included on the shopping list. Please refrain from adding cards, letters, photos, directories, bulletins or ANY other items that are not specifically identified in the instructions. **Good intentions can inadvertently cause delays with customs or compromise the safety of our partners living in the field.**

THE B CKET PROJECT

HOSPICE KIT

“This project was a source of hope for the people. The gratitude we have cannot be expressed in words, but we say thank you. Thank you for providing the aid we were needing and for working alongside us.”

SHOPPING LIST

Please only include **only** the items specified on the list. All the buckets must be identical so they can clear customs. Adding extras like photos, letters, or church bulletins, even in just one bucket, could cause the entire shipment to be delayed or even rejected. And, the people receiving buckets likely can't read English (if they can read at all).

HARDWARE:

- ☐ 1 (5 gallon) bucket with lid that snaps in white, with wire handle
*Green, blue or dove (light) gray buckets are acceptable but white is preferred. **Please do not purchase buckets with lids that must be hammered or forced on. They are very difficult for users to remove and replace.***
